

## Air Handling Systems Newsletter

keeping your environment clean  
June 2009

Dear Jamison,

REMINDER - 10% discount on any Air Handling Systems order over \$500 (list prices) when you mention this email, from June 15, 2009 through July 15, 2009. Download our latest price sheet available on our website: [2009 Price Sheet](#). We look forward to providing you with the best deal possible.

For over 59 years, Air Handling Systems has been keeping the work environment clean and healthy by providing cost-effective, high quality dust and fume collection components.

### **Video of YOUR Shop** Spotlight you and your products using our ductwork.

Nowadays, everyone needs business. We have an idea that hopefully will promote your business plus ours. We want to spotlight you and your products using our ductwork. This is intended to be fun and easy and help get your company more exposure.

How are we going to do this? YOU make a video and WE link it on our website with a brief description of your company and a link back to your website. We will then promote it through our email newsletter reaching thousands of other companies!

Show what's in your shop. Show how your ductwork has helped keep your environment clean. Then show us your products or latest creation. We want to focus on you, your shop and your products while showing a bit of our products too. It's fun and easy to make a video. Showcase your shop, your products and our ductwork and UPLOAD your video to YouTube: <http://www.youtube.com/>

Why do it? Cross marketing. We link your video to our website and promote your company through the link on our website.

What do you need? Video cam, cell phone cam or web cam and our ductwork. You can show ease of installation, your CNC with our flexhose and ball joint in action, how much you like using your easy connect sleeve or anything else you want.

Everyone is looking for an opportunity to help promote their business. Together we can make this happen.

### **Flexhose**

Air Handling Systems stocks many different types of flexible hose and can supply many other types in just a few days. We carry hoses for general dust collection, abrasion resistance, fume control, industrial ventilation and many other uses.

### **Access Doors** **Round and Flat**

Over 40% price reduction over the last year on various access doors. Access Doors are Quick and Simple to use. Can be installed in minutes. Access Doors for Round ducts are fabricated of galvanized steel.

There are many times you need access into your duct system. For example, cleaning a spray booth duct and fan blade, cleaning out plugged ductwork, checking sprinkler heads or a fire damper's fusible links. This is the perfect solution.

### **Updated Prices**

We have been able to pass on savings to you,

We look forward to seeing your video.

Just email me at [jscott@airhand.com](mailto:jscott@airhand.com) with sample video or any questions.

Jamison Scott,  
Director of Marketing
